Indicate the name of the Commission/Committee/Board you are interested in serving on:
Costa Mesa Senior Center's Board of Directors

1. Indicate why you wish to serve on this Commission/Committee/Board:

For over a year and a half, I have been attending the meetings of the Costa Mesa Senior Center's Board of Directors, both the total Board and the Executive Board. I would like to continue to do so, but with the ability to actively participate in the discussion of matters brought to the Board instead of just as a guest with only three minutes of input.

In addition to attending the Board meetings, I have also been attending the Senior Advisory Committee meetings and the meetings of the ad hoc Task Force formed to complete a new agreement with the City of Costa Mesa.

Further, I have been an active member of other senior centers, including Newport Beach, Irvine, and Huntington Beach. This broad range of experience at other centers would be helpful to creatively meet the needs and open opportunities for the members of the Costa Mesa Senior Center.

This participation in all these meetings, plus being an active volunteer in the Costa Mesa Senior Center Travel Group, gives me a unique background and insight into the needs and opportunities for growth that are available to the Center.

I would be an open minded and fair member of the Board, keeping in perspective the interests of the seniors as well as the other citizens of the city of Costa Mesa .

2. Indicate any experience or qualifications you possess that might apply to the Commission/Committee/Board you are interested in serving on. A resume may also be attached to this form. This is strictly optional.

With degrees in marketing and engineering and with work experience in public relations and communications, I have developed a range of skills that would be helpful in serving the Costa Mesa Senior Center, both through creative marketing ideas and communications' improvements.

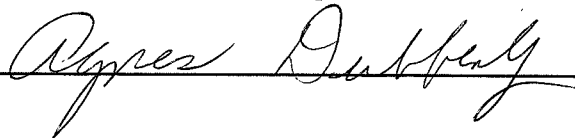

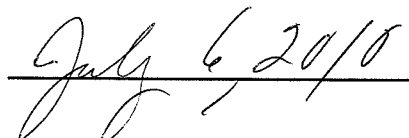

My experience in writing proposals would be useful in helping the Costa Mesa Senior Center to secure grants and funds from foundations. In my business experience, every proposal I wrote resulted in a contract for the company.

I am skilled in building consensus for successful collaborative efforts. As a leader in various organizations, I have been effective in promoting harmonious participation by various diverse groups including CEO's of major businesses as well as the average person working for these leaders.

In every organization that I have belonged to, I have been a leader. This includes the following:

American Institute of Chemical Engineers, Director of Publications
California Native Plant Society, Orange County Chapter, Board of Directors
Orange County Herb Society, Secretary
Colorado State PTA, Vice President
Costa Mesa Senior Travel Board, Secretary

Costa Mesa Senior Center Board of Directors

1. Indicate why you wish to serve on this Commission/Committee/Board:

The events involving the Costa Mesa Senior Center have been headline news these past few years. Ordinarily, this would be a great thing, but it has not been getting the "good press" that I would like to see the Senior Center receive, and by reflection our City. Living only blocks from the Senior Center since its inception gives me a unique perspective on the Senior Center's clients, as many of them are my neighbors.

On a personal level, I have been the primary caretaker for all of the senior members of my own family, and have extensive experience in the geriatric field and eldercare. It is true that the "Golden Years" are not for sissies. Our elderly population have incredible reserves of strength and resilience, but with the aging process come health concerns and loss of family and friends. This can, and is, an emotionally fragile and lonely time for many of our aging community members. They need a unique kind of care and understanding.

So what is/are the cause(s) of the Senior Center's problems of late? To quote Paul Newman in Cool Hand Luke, "I think what we got here is a failure to communicate". I think it is time to really listen to one another and not continue to 'talk at', complain and gripe about the improvements both seniors and the staff would like to see happen. On the side of the staff, I think they feel unappreciated for their hard work, and that leads to poor morale. On the side of the Seniors, they want to be heard and not treated like children. The biggest problem that I have personally observed is that any "question" that a member or non-member addresses to staff or Board members is (often) perceived as an "attack". A question is not an attack; it is just a question.

For the past year and a half I have attended all of the Senior Center (7:30 am) Board meetings, all of the Executive Committee Boards meetings, all of the City of Costa Mesa Senior Center Task Force Mtgs, and most of the SAC meetings. This background certainly helps bring me 'up-to-speed' for the position of a working Board member.

I live and work in Costa Mesa. My business has been in the same location for 32 years. It is a unique business in that we manufacture unusual items and also provide services to a broad range of clients. Every job we take is a 'one-of-a-kind', and requires a high degree of problem solving and creativity, and every customer has different expectations. Because of my particular skill set I have extreme

cont. on back

flexibility and have found during 32 years of business management that not all jobs are driven by the "bottom line".

If chosen to serve I look forward to being a positive and contributing member of the Senior Center Board of Directors.
