## WATER QUALITY MANAGEMENT PLAN

### WHY ARE THEY REQUIRED?

In response to the Federal Clean Water Act of 1987 and the National Pollution Discharge Elimination System (NPDES) permit requirements, the City of Costa Mesa requires the Water Quality Management Plan (WQMPs) for certain types of projects. The intent is to reduce the content of storm water runoff to the maximum extent possible.

### WHAT TYPE OF PROJECT REQUIRES A WQMP?

1. All construction projects, which require discretionary approval by the City of Costa Mesa, shall be required to submit a WQMP for approval by the City prior to the issuance of building permits.
2. All subdivisions of land shall be required to submit a WQMP for approval by the City prior to recordation, if determined applicable by the City.

### WHAT IS A WQMP?

A WQMP is a written document indicating what structural and non-structural "best management practices" will be incorporated into the project, both design and operation characteristics, to control pollutant runoff into the storm drain system over the life of the project. Contact the City for more information about this requirement.
