Visiting us is Steve Balya, the Headmaster (principal) of Wentzee Secondary College, the equivalent of our 7-12 schools. He has been the local arrangements chairperson on the Aussie end, like Sue Smith is for NMLUSD. Steve and his teachers have hosted NMLUSD delegates by having us stay in their homes. His wife, Diane, teaches Italian to upper elementary students and Reading Recovery to first and second graders. His e-mail expresses an interest in "Finding out how the Arts (static and performing) is promoted in schools with a special emphasis on students' combining their skills with Small Business Management." Steve wants to explore the possibility of NMLUSD high school seniors participating in an exchange program. Diane wants to see how we teach reading and writing, in addition to learning about how we teach a second language to elementary students. *Lynne 1/5/04*
